

Top 10 Reasons to Buy Matrox MXO2 LE – Not AJA Io Express

1. Matrox MXO2 LE offers more features at the same price – \$995

2. Matrox MXO2 LE provides 10-bit HDMI monitoring with a unique color calibration tool that turns your HDMI screen into a professional-grade video monitor – Io Express does not offer a calibration utility.

3. Matrox MXO2 LE provides 10-bit realtime hardware up/down/cross conversion on capture and output – Io Express does not provide any scaling.

4. Matrox MXO2 LE supports analog component, Y/C, and composite input – Io Express does not support any analog input.

5. Matrox MXO2 LE provides analog component, Y/C, and composite output simultaneously via separate, dedicated connectors – Io Express has only three connectors used for a component output or Y/C and composite output.

6. Matrox MXO2 LE can output HD and SD video simultaneously – Io Express cannot.

7. Matrox MXO2 LE features professional XLR audio: 2-in, 2 out – Io Express does not support XLR audio.

8. Matrox MXO2 LE has stereo audio inputs (RCA) – Io Express does not.

9. A version of Matrox MXO2 LE is available with Matrox MAX technology for faster than realtime H.264 encoding for Blu-ray, the web, and mobile devices – Io Express does not offer this important benefit.

10. Matrox MXO2 LE has a sturdy, stylish, metal enclosure that is designed to dissipate heat and protect your connections for longer product life and better stability – Io Express has a plastic enclosure.
