

Lightning Fast H.264 Encoding Card for Professionals

If you're a professional content creator delivering H.264 files for Blu-ray, the web, and mobile devices, you need a fast, flexible, high quality encoding workhorse. Matrox CompressHD is the first implementation of Matrox MAX technology in an amazingly affordable H.264 accelerator card. It works in systems with or without a video I/O device and extends the life of your current system investment, giving you the power you need to deliver today's premium H.264 formats faster than ever. This low profile, half-length PCIe x1 card fits into PC workstations and desktop systems. Get yourself a Matrox CompressHD card and deliver your projects in a fraction of the time!

Matrox CompressHD can also be used with Mac Pros and Intel-based Apple Xserve systems.

Key features

- Works in systems with or without a video I/O device to enhance your delivery workflow
- Extends the life of your current system investment, giving you the power you need to deliver today's premium H.264 formats faster than ever
- Low profile, half-length PCIe x1 card
- Works in systems with Windows 7 (64-bit), Windows Vista (32 and 64-bit), and Windows XP (32-bit)
- Three-year hardware warranty and complimentary telephone support

Powered by Matrox MAX Technology

Matrox MAX is a unique technology that speeds up H.264 encoding for resolutions ranging from iPod to HD. It uses a dedicated hardware processor to accelerate the creation of H.264 files for Blu-ray, the web, and mobile devices. By using specialized hardware acceleration, jobs are finished with amazing speed and system resources are liberated for other tasks. Quality and flexibility are ensured through direct integration with professional applications such as Adobe Media Encoder and Adobe Premiere Pro on the PC.
